THAMES & HUDSON  
HARDBACK

RRP: \$110.00

The *Modern Japanese Garden* investigates the relationship between nature and modernity. Roughly divided between pre- and post-1945 Japanese garden design, it examines post-war shifts in attitudes towards the contemporary garden as they move from status symbols and expressions of influence to spaces of healing and mediation. A short history of the Japanese garden, from pre-Shinto stone arrangements to the last years of the nineteenth century, sits alongside analysis of the contemporary gardens of Japan's corporate buildings, museums, hotels and public spaces.

RRP: \$76.99

Interior designer Caitlin Flemming always gets asked how “the rules” of professional design can be applied to any home—how to pick a paint color and get better lighting, how to mix patterns, where to hang art and curtains, how to get the right scale and placement of furniture and rugs . . . the list of common questions goes on. While there's no one way to design a space, there is a teachable art to creating a harmonious home. So Flemming and her coauthor Julie Goebel came up with the idea for this book—a design bible that divulges the wisdom vouchsafed only to the pros.

RRP: \$100.00

Sydney is defined by its glittering harbour. Along its winding waterfront, prestigious homes perch above the water, surrounded by lush gardens and natural coastal features. Acclaimed landscape designer Anthony Wyer has crafted gardens to frame some of Sydney's most exclusive addresses, from a cliff-top estate in Vaucluse to a hidden retreat in Mosman. Each space is a study in restraint and elegance, where layered planting, coastal textures and sculptural design echo the rhythm of the sea and the pace of harbourside life.

RRP: \$85.00

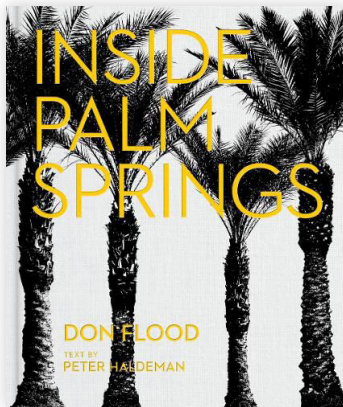

In the bushy north-eastern fringe of Melbourne, an enduring, uniquely Australian architectural aesthetic has been quietly gaining recognition. Emerging out of necessity in the post-war years, it reimagined the sleek ideals of modernism through the lens of the local landscape. Simple homes built ‘of the land’ from mud bricks and recycled timber captured the mood of those searching for an alternative way of life close to nature. The movement gathered momentum in the counter-cultural 1960s and culminated in near-mainstream popularity in the 1970s.
