This companion to *Pagan Curious* puts everything a budding Pagan needs right at your fingertips.

If you've taken your first steps into the garden of Paganism but you're not sure what to seek, this book makes it easy to follow that joyful path into your own unique practice. Debra DeAngelo helps you clarify what you really want and embrace a Pagan mindset. Learn how to make altars; do rituals; and connect to the energy of the Earth, the stars, and your own heart.

Instead of searching for a particular item or practice and compiling them piecemeal, *Pagan Curiouser* provides everything you need: preparing your magical space, meeting deities, choosing your magical supplies, exploring plant and animal allies, and much more. Approachable and fun, this book is exactly what you need to become a practicing Pagan.

Claudiney Prieto

Discover the universal principles of the Kybalion reinterpreted through the lens of modern Witchcraft.

The Metaphysics of UFOs

Evidential Case Studies on UAPs, Paranormal Phenomena, and Spiritual Experiences

Jonathan Kendall

A systematic examination of the physical and spiritual nature of UFOs and other unexplained phenomena.

Are UFOs from our universe or parallel realities? Do they originate in the same spiritual realm as our dearly departed? How are they connected to cryptids and poltergeists? Sharing numerous evidential case studies, Jonathan Kendall explores the physical and spiritual aspects of UFOs/UAPs that could lead to revolutionary breakthroughs in communication, energy use, medicine, interstellar travel, and more.

Discover the connection between UFOs and kindred phenomena like monsters, Men in Black, and ghosts. Investigate the harrowing world of UFO abductions and why the aftereffects are so similar to near-death experiences and encounters with mystical realms. This book shatters conventional views of reality and proves that far more is at stake than answering the question, "Are we alone in the universe?"

The UFO Bombshell Before Roswell

Missouri's 1941 Crash and Coverup

Paul Blake Smith

In 1941, a presumed airplane crash changed history. Immediately after, the US government covered it up. This thrilling book reveals the truth of America's early contact with aliens.

There are plenty of books about the 1947 extraterrestrial encounter at Roswell, New Mexico. But only this one uncovers the full story of the UFO crash at Cape Girardeau, Missouri—six years before Roswell.

Paul Blake Smith explains how and why this crash was covered up—and where they took the evidence. President Franklin Delano Roosevelt knew about it. Harry S. Truman—Missouri senator at the time—knew about it. Did Albert Einstein know about it, too? Did the alien technology culled from the crash help refine the atomic bomb? This book presents meticulous research, historical documents, and witness accounts so you can decide what really happened that night.
